

Experience the World of Sanvit HRMS

Next-Generation All-in-One HR Management Platform | Built for Seamless Growth & Enterprise Security

■ Zero Friction HR

Automate payroll, attendance, leave, performance & recruitment in one unified workspace.

■ Bank-Grade Security

Multi-layer encryption, anti-hijacking protection, and confidential data vaults.

■ Intuitive UI

Designed for maximum simplicity and zero learning curve for employees and HR teams.

■ **Swipe / Click 'Next' to explore platform capabilities & security benefits**

Why Upgrade to Sanvit HRMS?

Say Goodbye to HR Bottlenecks, Data Hijacking Risks & Manual Errors

■ Traditional HR Challenges

- **Fragmented Spreadsheets:** Error-prone manual calculations causing payroll delays.
- **Data Hijacking & Leak Vulnerabilities:** Unsecured employee documents and financial records.
- **Attendance Disputes:** Lack of real-time visibility and approval audit trails.
- **Complex Compliance:** Missed statutory deadlines for PF, ESI, and TDS deductions.

■ The Sanvit HRMS Advantage

- **100% Automated Workflows:** One-click payroll generation and instant payslip dispatch.
- **Enterprise Security Shield:** Encrypted database, strict session cookies & anti-hijacking protection.
- **Real-Time Self-Service:** Employees apply for leaves & access documents instantly.
- **Automated Tax Compliance:** Zero-error calculations for TDS, PF, ESI & statutory rules.

Comprehensive HR Capabilities in One Platform

Modular, Scalable, and Built for Organizations of All Sizes

■ Attendance & Leave Real-time check-ins, multi-tier approval workflows, custom leave rules & leave balance tracking.	■ Automated Payroll One-click salary processing, itemized PDF payslips, tax deductions (PF/ESI/TDS) & direct disbursement logs.	■ Performance & KPIs 360-degree feedback, appraisal review cycles, goal setting, rating metrics & promotion tracking.
■ Recruitment & ATS Applicant tracking, candidate pipeline, interview scheduling, and seamless candidate-to-employee onboarding.	■ Document Management Centralized digital file storage for HR letters, identity proofs, contracts, and policy manuals.	■ Analytics & Reports Visual executive dashboards, headcounts, attrition metrics, attendance trends, and custom exports.

Enterprise-Grade Security & Anti-Hijacking Architecture

How Sanvit HRMS Guarantees Total Data Confidentiality & Protection Against Threats

■ Session Anti-Hijacking

HTTP-only cookies, strict SameSite lax controls, and automatic 1-hour session expiration block cookie theft and hijacking attempts.

■ Data Confidentiality

Encrypted storage for sensitive salary data, bank accounts, and personal identifiers. Zero unauthorized data exposure.

■ Role-Based Access (RBAC)

Strict permission boundaries ensure employees, managers, and admins only see data explicitly authorized for their role.

■ Threat Protection

Active security headers (X-Frame-Options SAMEORIGIN, nosniff, XSS protection) shield the portal against injection attacks.
